

Savings without sacrifice

Saving resources – whether natural or financial – is simply smart business. With Mansfield's broad selection of High Efficiency Toilets (HET), you can reduce water consumption without sacrificing style, price or performance. With styles driven by in-depth customer research and current design trends, Mansfield products offer the same great looks as high-end brands for a fraction of the cost. And the same goes for reliable performance. Our affordable line of toilets for both residential and commercial applications is on the cutting edge of innovation, conservation, performance and style. And we stand behind every one of our products with a limited lifetime warranty.

RESIDENTIAL MODELS

Prestigio™ 4

The contemporary low profile and sleek lines of the Prestigio™ 4 conceal a powerful pressure-assist, high-performance flushing system which uses a mere 1.1 gallons per flush.

- Uses up to 40% less water
- Perfect to use where space is limited
- Qualifies for many water district rebate programs
- Glazed 2" trapway reduces clogging
- One-piece construction for contemporary design and easy cleaning
- Includes SmartClose™ toilet seat
- WaterSense™ certified
- Mansfield Limited Lifetime Warranty

Enso™

All the conservation benefits of an HET combined with a contemporary organic design make the award-winning Enso™ a study in elegance and efficiency.

An understated push activator button with dual control allows the choice of 1.1 gallon efficiency flush or 1.6 gallon full flush.

- Uses 20% less water
- 3" flush valve for virtually clog-free flushing
- Concealed trapway is easy to clean and adds to the organic design
- Complete Enso™ Suite available
- Complies with WaterSense™ requirements
- Includes SmartClose™ toilet seat
- Mansfield Limited Lifetime Warranty

EcoQuantum®

Featuring the industry's newest dual-flush pressure-assisted technology, the EcoQuantum® lets each user choose how to flush for the highest efficiency — 1.1 gallons or 1.6 gallons. The large water surface area keeps the bowl clean and reduces odors.

- Uses up to 40% less water
- Qualifies for many water district rebate programs
- Exceeds ANSI/ASME 60-foot drain carry performance standards
- WaterSense™ certified
- Commercial models available*
- Mansfield Limited Lifetime Warranty

QuantumOne™

The ultimate in water conservation, the QuantumOne™ with a powerful pressure-assist system uses a mere 1 gallon per flush, while a large water surface area keeps the bowl clean and reduces odors.

- Uses up to 40% less water
- Qualifies for many water district rebate programs
- Exceeds ANSI/ASME 60-foot drain carry performance standards
- WaterSense™ certified
- Commercial models available*
- Mansfield Limited Lifetime Warranty

Maverick™ 1.28

Our most popular and economical HET option, the Maverick™ 1.28 with MagnaFlush III™ technology maintains a very powerful flush with only 1.28 gallons of water.

- Uses 20% less water
- Qualifies for many water district rebate programs
- 3" flush valve and optimized 2-1/8" trapway ensure a quick quiet flush and prevent clogging every time
- WaterSense™ certified
- Mansfield Limited Lifetime Warranty

COMMERCIAL MODELS

Adriatic™

A cost-effective water-saving option ideal for any commercial application, the floor-mount Adriatic™ flushes powerfully and efficiently with just 1.28 gallons.

- Uses up to 20% less water
- Complies with WaterSense™ requirements
- Bariatric: supports up to 1,000 lbs
- Also available without bedpan lugs for commercial applications
- Mansfield Limited Lifetime Warranty

Shown with bedpan lugs

Erie™

The perfect water-saving wall-hung solution, Erie™ is ideal for commercial applications where all water and sewer lines are located behind the walls, and in schools and healthcare facilities where cleanliness is key. Powerful 1.28 gallon flush capacity offers performance and savings.

- Uses up to 20% less water
- Complies with WaterSense™ requirements
- Bariatric: supports up to 1,000 lbs
- Concealed trapway for easy cleaning
- Also available with bedpan lugs for healthcare applications
- Mansfield Limited Lifetime Warranty

Brevity™ 1-Pint Urinal

This compact, contemporary urinal is a marvel of modern design and efficiency. The small size and clean lines make it ideal for small rest rooms and applications looking for a more stylish alternative to the institutional urinal. Revolutionary 1 pint flushing capacity is the lowest in the industry.

- Wash-out flush action ensures thorough cleaning
- Includes flushing rim and integral strainer
- Complies with WaterSense™ requirements
- Mansfield Limited Lifetime Warranty
